

PRINCE VAISHNAV

DevOps Engineer | Bengaluru, Karnataka

+91 9016151228 | vaishnavprince995@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

DevOps Engineer with hands-on internship experience at Davine Technologies and end-to-end projects in CI/CD, containerization, and AWS infrastructure. Skilled in Docker, Kubernetes, Terraform, Ansible, Jenkins, GitHub Actions, Argo CD and DevSecOps practices with experience deploying a three-tier application on AWS EKS. Strong problem-solving skills with a focus on automation, scalable infrastructure, and reliable deployments.

TECHNICAL SKILLS

Cloud Platforms: AWS (EC2, S3, IAM, VPC, ECS, EKS, ALB)

Containers & Orchestration: Docker, Kubernetes

CI/CD & GitOps: Jenkins, GitHub Actions, Argo CD

Infrastructure as Code & Configuration Management: Terraform, Ansible

Scripting & Automation: Python, Bash/Shell Scripting

OS & Version Control: Linux, Git, GitHub

Monitoring & Observability: Prometheus, Grafana, AWS CloudWatch

Networking: TCP/IP, DNS, HTTP/HTTPS, SSL/TLS, Load Balancing

EXPERIENCE

DevOps Intern | Davine Technologies

March 2026 – Aug 2026

- Managed **Linux servers** and **AWS resources** (EC2, IAM, VPC, S3) for application deployments, monitoring, and troubleshooting.
- Configured and managed **Nginx web servers** for application hosting and reverse proxy setup.
- Built and maintained Docker-based environments for **containerized** application deployment and testing.
- Supported **CI/CD pipeline** execution using Jenkins and GitHub Actions with automated build and deployment workflows.
- Assisted in **infrastructure automation** using Terraform for provisioning and Ansible for **configuration management**.
- Collaborated with development teams to troubleshoot issues and improve **deployment efficiency**.

PROJECTS

AI-Chat Application Deployment with GitHub Actions CI/CD | [GitHub](#)

- Designed and implemented a **DevSecOps** CI/CD pipeline in **GitHub Actions** for a Flask-based AI chat app, automating code **quality** (flake8, bandit), **dependency** and **secrets scanning** (pip-audit, gitleaks), and **Dockerfile linting** (hadolint).
- Containerized the **Flask/Gunicorn application** integrating the Groq LLM API using **Docker** and **Docker Compose**, deployed on AWS EC2 behind an **Nginx reverse proxy**.
- Automated remote deployment to AWS EC2 via SSH with **Trivy image scanning** for HIGH/CRITICAL CVEs, reducing **deployment time by 65%**.
- Configured Slack webhook **notifications** for real-time **pipeline alerts** and improving team visibility for failed deployment.

Tools & Technologies: Flask, Docker, Docker Compose, GitHub Actions, Nginx, AWS EC2, Trivy, Gitleaks, Bandit, Hadolint, Slack API

Terraform Multi-Environment AWS Infrastructure | [GitHub](#)

- Built modular Terraform IaC with **reusable modules** (EC2, S3, DynamoDB) for **multi-environment** (Dev, Stage, Prod) AWS infrastructure to improve **scalability** and **maintainability**.
- Configured a remote **S3 + DynamoDB** backend for **secure state locking**, and managed infrastructure lifecycle via **Terraform workflows**.
- Minimized **manual infrastructure setup effort by 70%** using reusable Terraform modules

Tools & Technologies: Terraform, AWS (EC2, S3, DynamoDB, VPC), AWS CLI

Three-Tier Application Deployment on AWS EKS | [GitHub](#)

- Deployed a **scalable** three-tier application on **AWS EKS** using Kubernetes with **AWS ALB** for load balancing, configuring Deployments, Services, Ingress, and Secrets for **high availability**, **auto-scaling**, and secure secret management.
- Implemented a **GitOps-based CI/CD** pipeline using Jenkins and Argo CD to automate application deployments with **zero-downtime rollout**.
- Set up Prometheus and Grafana for application **monitoring**, dashboards, and **alerting** to improve **observability**.
- Improved **release efficiency by 50%** through GitOps-based (Jenkins + Argo CD) zero-downtime deployment automation.

Tools & Technologies: AWS EKS, AWS ECR, ALB, Kubernetes, Docker, Jenkins, Argo CD, Prometheus, Grafana

EDUCATION & CERTIFICATIONS

Bachelor of Computer Application (BCA)

Jun 2022 — May 2025

Gujarat University, Ahmedabad

Professional DevOps Training – [View Certificate](#)

Jul 2025 — Feb 2026

PySpiders Institute, Bengaluru
